5.2. Special hazard arising from the substance or mixture

Fire hazard	In case of fire, the following can be released: Nitrogen oxides (NOx). Reduce dust and vapor with water spray.
Explosion hazard	Explosive mixture: Not applicable-non-explosive. High temperatures may cause pressure build-up in closed containers.
Reactivity	During the thermal decomposition produced of harmful compounds. Brown fumes containing toxic nitrogen oxides.

5.3. Advice for firefighters

Precautionary measures fire	As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Clothing resistant to high temperatures. Independent self-contained breathing apparatus.
Firefighting instructions	Cool tanks/drums with water spray/remove them into safety. Do not move the load if exposed to heat. Dilute toxic gases with water spray.
Protection during firefighting	Heat/fire exposure: compressed air/oxygen apparatus.

SECTION 6.- ACCIDENTAL RELEASE MEASURES

Emergency procedures	Ventilate area.

6.2. Environmental precautions

Avoid release to the environment. Do not allow product to spread into the environment. Do not discharge into drains or rivers

6.3. Methods and material for containment and cleaning up.

Method for containment	Use appropriate tools to put the spilled solid in a convenient waste disposal container. If necessary: Collect up the product and place it in a sealable container. Suitably labeled. Transfer carefully to container. Then take the spare containers to an area reserved for subsequent recycling or disposal. Do not put the cast down material back into the original container, for re-use. Avoid prolonged or repeated exposure.
Methods for cleaning up	Prevent dispersion by covering with dry sand/earth. Scoop solid spill into closing containers. See "Material-handling" for suitable container materials. Spill must not return in its original container. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling.
Other information	Dispose of materials or solid residues at an authorized site.
